

Hi-Tech Software will soon notify you that **Release 9.08** is available on our website. This *Hi-Tech Hi-Five* describes some of the changes you will receive with Release 9.08. Learn about the other changes by reading the **Release 9.08 Update Memo**.

Hi-One Release 9.08 Provides Print Face Sheet Changes

Print Face Sheet:

-  Check Show entire Social Security # to print the full SSN rather than just the last four digits. To always print the full SSN, select **Libraries > Facility > Clinical Profile**. Click **Ok** to display screen 2, and check Default Face Sheet Print entire SS#.
-  The resident's prefix (Mr, Mrs, Ms, etc.) and Suffix (Sr, Jr, etc.) will be printed with the resident's name, for example: **Mr. HENRY H AKERS Jr.**
-  Under **Contacts**, if a resident does not have a Day Program, the 3rd to Notify will be printed.
-  Resident's previous address will be printed on page 2.

Hi-Two Review Existing Notes by Discipline

Release 9.08

If you assign a Discipline code to your Notes (i.e. N for Nursing, SS for Social Services) when you review **Existing Notes** at the bottom of the screen, you can check View Discipline Only to display just the notes for the Discipline code entered at **Discipline**.

The screenshot shows a software interface with the following elements:

- Top bar: Date: 08/10/2009, Time: 10:23, Page: 1, Discipline: N, NURSING
- Left sidebar: Add Note, Existing Notes
- Main content area: A text box containing a note dated 06/30/2005, Type: Progress, Note: 0003. The text describes a resident named Margaret who became confused during lunch.
- Bottom left: A 'View Discipline Only' checkbox is checked. Below it are radio buttons for 'All' and 'Progress'.
- Annotation: A red box highlights the 'Discipline' dropdown and the 'View Discipline Only' checkbox. A red arrow points from the text box to the checkbox.

Hi-Three Hi-Tech Adds New Census Reporting

Release 9.08

Resident Accounting > Reporting > Census:

New! Select **Daily % Occupancy** to print occupancy by Payor, Payor/Room Status, Unit and Unit/Room Status. This report will be included with Month-End Reports.

Daily % Occupancy
Stats by Gender/Age

New! Select **Stats by Gender/Age** to list residents by age and gender. The report will include residents who had a stay in the last 12 months. Age will be based the most recent admit date.

Hi-Tech identifies each update with a Release Number in the Y.MM format, i.e., 9.08 for 2009.August. When you install an update, the new Release number is displayed at the top of your Hi-Tech menu.

User ID: <input type="text"/>	Release 9.08 	Date: 08/17/2009
-------------------------------	--	------------------

Between updates, Hi-Tech might post additional program changes, called **Patches**, to our website. Review the **Downloads/Updates** page at anytime to see if new Patches are available to download. (See example on the right.)

All Program Patches since Current Release

Your HTS System must be at **Release 9.08**
Patches are all-inclusive and dated with each release

Patches Posted on 8/12/09	Memo	Download Patches
----------------------------------	----------------------	----------------------------------

View: [How to Download Patches](#)

Before you download Patches, verify that your Hi-Tech menu is at the specified release.

Don't worry if you do not regularly download Patches. We include all Patches in the next Release.

For more information about the current Patches, click [Memo](#) and [How to Download Patches](#).

MaineCare has hired the HMS Holdings Corporation to identify and recover overpayments to Nursing and PNMI providers between January 1, 2005 through December 31, 2008.

Over the next several months, HMS will request information from providers and contact you when they are ready to audit your facility.

Hi-Tech has communicated with HMS and we know what data they are looking for. For those who use our Resident Accounting System, we will design a process that creates a file of billing data that can be imported into an Excel file. You can review this file and then send it to HMS via a secure method. When this process is available, Hi-Tech will post it with instructions on our website.

If you did not use Hi-Tech billing applications for the entire audit period (01/01/2005 -12/31/2008) you might need to provide billing information from another source (manual, etc.).

Hi-Tech will soon post the September and October Webinar schedule to our website.

Review it at: www.hi-techsoftware.com > [Hi-Tech Clients](#) > [View Webinar Schedule](#).
